Construction project extended on ND Highway 28 near Ryder

Construction project work has been extended on ND Highway 28 near Ryder. The project work consists of raising the roadway and maintenance work.

A recent small landslide in the area will extend the project timeframe as measures are taken to repair damage to the roadway. The construction project-and repair work is expected to be completed later this fall.

During construction:

- Traffic is reduced to one lane
- Speeds are reduced to 25 mph
- A 12-foot width restriction is in place

The traveling public should use caution when driving through the construction zone. Motorists should allow extra distance between their vehicles and the vehicles in front of them, use extra caution and obey flaggers and posted signs.
